From The Presidents Desk

by Tim Devine

It's hard to believe that we are already half way through 2011 and in a nutshell the crazy weather patterns have made difficult to actually get in much flying time. Weekends have either been to windy, to rainy or the fields are to wet. Both our poker run and Young Eagles Day were washed out, but we plan on rescheduling for later in the season.

Despite the difficult weather however some of our determined student pilot's and builders have prevail and moved forward. John Peck's show piece RV-12 is operational. Phylise Banner over came her fears and conquered her solo flight moving one step closer to her PPL. Pat Morris is now a member of the ranks of private pilot's as he passed his test in Burlington on June the 16th. Chris brown is getting in as much time as possible in learning to fly his Chief and hopefully will be signed off soon. Mark Murphy's Husky is just about ready to go, and we should be seeing that in a few short weeks. The prize winner however, as you all know by now is Tim and Arties hybrid was given the blessing by Al Miller on Monday June 20th and was successfully flown to Murphy's that afternoon. Tim C. reports that

it handled beautifully. There are a few small adjustments to be made, but judging by the smile on Tim's face there is going to be some serious flight time logged in his new beauty this Summer. Congratulations to all and keep up the good work.

At this month's meeting we will be awarding the EAA Chapter 602 Aviation Scholarship to Brandon Van Valkenburg of Fort Plain High School. Brandon will be starting his career as an aviation mechanic at MVCC aviation program based at the old Griffis Air Force base. Try to make the meeting so you can meet Brandon and his family and wish him the best.

Lots of good flying weather left this year, so keep your chin's up, make offerings to the weather gods (no sacrifices) and keep your birds ready to go.

Tim D.

Notes From Your Editor

by Doug Sterling

Here we are coming into July - hard to believe this year is half over. Harder to believe that I've only flown 4 hours so far. Is it the weather or do I have to many things to do. Got to do something

about that. As soon as the kids leave next week I'm going to fly the wings off the GlaStar.

By now everyone knows that the Artie/ Timmie Chump, or whatever it's called, is flying. Maybe the Cherokee will get a rest after he flies off the 40 hours (he sure can fly the wings off my plane). We all wish him good luck as building and flying a scratch built plane is quite an accomplishment.

Anyway here we are with only 3 pages (really 2) in our newsletter. Come on folks we have a million stories out there (especially you Tim) to tell, and a fine group here waiting in anticipation.

Also - Is anyone going to Oshkosh this year? If so let me know as I will set us an area for club members. It's time for some of you folks who haven't been yet to get it in gear. It's a real happening.

See you all at the meeting on Monday.

EAA602 FLY MARKET

FOR SALE

STS AV7600 Handheld VHF radio 720 CH W/ all Acess. \$175 Tom@ 518 863-4988
